Matrix MXE-5L Instructions

Summary:
The MXE-5L (DNS-1007) allows you to boot any PS2 or PS1 import and backup game (CD-R, DVD-R) without the use of any swap methods, as well as without the need for an Action Replay 2 or GameShark 2. Imagine playing all of your favorite PS2 imported games and CD-R/DVD-R backups without any required swaps what-so-ever.

Features:
* Direct boot of all PS2 import/backup games
* Direct boot of all PS1 import/backup games
* No swap methods required
* No AR2 or GS2 required
* 100% compatible with all games!

How to Boot PS2 Discs:
Insert a PS2 original, imported or backup disc, then press RESET once.

How to Boot PS1 or DVD Movie Discs:
Insert a PS1 game disc or DVD movie, turn off the PS2 console by putting it into standby mode, then press RESET to turn on the PS2 console.
